IMPORTANT UPDATE

CORONAVIRUS (COVID-19)

We want to take this opportunity to provide you with an update of what we are doing at Little Silver & HerSpace to ensure the safety and well-being of our patients and staff.

The following precautions have been implemented, effective immediately:

We are screening all patients for the following:

- Fever greater than 100.4F or flu-like symptoms
- New cough
- Difficulty breathing
- Close contact with someone suspected or known to have Coronavirus over the past 14 days
- Travel to Europe, Iran, South Korea, Japan, or China over the past 14 days

If the patient meets any of the criteria above, they will not be scheduled.

Daily Preventative Care: LSHS will continue to follow our established infection control policies and procedure. This includes:

- Offering patients who are coughing in the waiting room a mask
- Anyone in close patient contact will use personal protective equipment such as masks, gloves, sanitizer
- All rooms are disinfected with medical grade disinfectant after each patient encounter
- Continuous hand hygiene will be practiced by all staff members
- Waiting area, front desk, clip board and pens are disinfected every 40 minutes

We recognize that this situation is rapidly evolving and will continue to monitor the CDC recommendation and guidelines daily, along with our state and local departments of health.

Should you have any questions or concerns, please feel free to contact Laura O'Hara at 732 741 9595 x132 or via email at lohara@redbankrad.com
