

Little Silver Mammography & HerSpace is a free-standing, private breast imaging facility. We are dedicated to providing the most advanced breast imaging services while ensuring the health and safety of each of our patients and staff members. Our leadership team has been closely monitoring the rapidly evolving conditions of the COVID-19 pandemic, and have been adjusting our responses accordingly.

Our Current Safety Protocols

- **Staff Training:** Each member of our staff has been trained in regard to strictly following our increased infection prevention protocols and to screen each patient for any signs of respiratory illness. Before scheduling an appointment for a patient, our staff members are required to ask the patient a set of questions in accordance with the **CDC guidelines** to ensure that the patient has not been recently exposed to someone with Covid-19.
- **Mandatory Masking:** It is mandatory for **all** patients and staff to wear a face mask at **all** times in our office.
- **Social Distancing in Our Waiting Room:** To avoid overcrowding, we are allowing a maximum of **2** patients in our waiting room at a time. We ask that patients avoid bringing guests into the office with them **unless** the patient is under the age of 18 or requires assistance with mobility.
- **Optional Curbside Check-In:** Patients who desire to decrease their time spent in our office have the ability to opt for a curbside check-in. Patients who choose to do so may call our office when they arrive in our parking lot, and we will notify them when it is best time for them to come into our office.
- **Reduced Check-In Time:** Our front desk staff is dedicated to ensuring that each patient's in-person check-in is completed as quickly and efficiently as possible. We are obtaining all patient information that is possible to convey over the phone at the time of scheduling the patient's appointment in order to reduce the contact time between patients and our front desk staff.
- **Amplified Cleaning Protocols:** We are sanitizing **all** equipment and surfaces after each patient with hospital grade products deemed effective against Covid-19.
- **Removal of Reading Materials and Shared Items:** We have removed **all** reading materials from our waiting rooms to limit the amount of contact with high-touch surfaces. We have **ceased** to allow the reuse of our pens for filling out paperwork. Each patient will receive a **brand-new** pen to fill out their paperwork and are instructed to **keep** the pen upon completion.
